Ag Teacher's Creed

I am an agricultural educator by choice and not by chance.

I believe in American agriculture; I dedicate my life to its development and the advancement of its people.

I will strive to set before my students by my deeds and actions the highest standards of citizenship for the community, state and nation.

I will endeavor to develop professionally through study, travel and exploration.

I will not knowingly wrong my fellow teachers. I will defend them as far as honesty will permit.

I will work for the advancement of agricultural education and I will defend it in my community, state and nation.

I realize that I am a part of the school system. I will work in harmony with school authorities and other teachers of the school.

My love for youth will spur me on to impart something from my life that will help make for each of my students a full and happy future.
